**Statement of Responsibilities**  
**31 March 2020**

**The Council's Responsibilities**

The council is required:

- to make arrangements for the proper administration of its financial affairs
- to secure that one of its officers (R.F.O.) has the responsibility for the administration of those affairs. At this council that officer is the Town Clerk, and
- to manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.

**The Responsible Financial Officer's Responsibilities**

The R.F.O. is responsible for the preparation of the council's Unaudited Financial Statements in accordance with Part 4 of the "Governance and Accountability for Local Councils – A Practitioners Guide (England) (as amended)" (the guide), so far as is applicable to this council, to present a true and fair view of the financial position of the council at 31 March 2020 and its income and expenditure for the year then ended.

In preparing the Unaudited Financial Statements, the R.F.O. has:

- selected suitable accounting policies and then applied them consistently
- made judgements and estimates that were reasonable and prudent, and
- complied with the guide.

The R.F.O. has also:

- kept proper accounting records, which were up to date, and
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

**Responsible Financial Officer's Certificate**

I further certify that the Unaudited Financial Statements present a true and fair view of the financial position of Filton Town Council at 31 March 2020, and its income and expenditure for the year ended 31 March 2020.

Signed: ..........  
Mrs Lesley Reuben, CiLCA- Town Clerk

Date: .....30th June 2020.....

**Statement of Accounting Policies**  
**31 March 2020**

**Auditors**

**The name and address of the External Auditors is provided for information only.**

**These Statements are not subject to audit and the External Auditors have no responsibility for them.**

**Accounting Convention**

The accounts have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) (FRSSE) issued by the Accounting Standards Board, as applied to Local Councils by part 4 of Governance and Accountability for Local Councils – A Practitioners Guide (England) (the guide). Comparative figures have been restated to conform to the revised formats where appropriate. Certain requirements have been omitted for clarity and simplicity as these statements are not subject to audit. They are produced in support of the council's audited Statement of Accounts contained within the Annual Return Statement of Accounts.

These accounts have been prepared having regard to the fundamental accounting concepts of: Going Concern, Prudence, Accruals, Relevance, Consistency, Reliability, Comparability, Understandability and Materiality.

The accounts have been prepared under the historical cost convention.

**Fixed Assets**

All expenditure in excess of £1000 (on any one item or group of similar items) on the acquisition, creation or enhancement of fixed assets is capitalised on an accruals basis in the accounts. Expenditure on fixed assets is capitalised, provided that the fixed asset yields benefits to the authority and the services it provides, for a period of more than one year. Fixed assets are valued on the basis recommended by the Chartered Institute of Public Finance and Accountancy (CIPFA) and in accordance with the statements of asset valuation principles and guidance notes issued by the Royal Institution of Chartered Surveyors (RICS). The closing balances are stated on the following basis:

land and buildings are included in the balance sheet at Depreciated Replacement Cost (DRC). The DRC basis of valuation requires an estimate of the value of the land in its existing use, together with the current replacement cost of the building and its external works, from which appropriate deductions have been made to reflect the age, condition, economic, functional and environmental obsolescence and other locational factors which might result in the existing building being worth less than a new replacement building,

all other assets are included in the balance sheet at the lower of cost (estimated where not known) or estimated realisable value, except that,

certain community assets are the subject of restrictive covenants as to their use and/or future disposal. Such assets are therefore considered to have no appreciable realisable value and are included at nominal value only.

The surplus or deficit arising on periodic revaluations of fixed assets has been credited or debited to the Revaluation Reserve. Subsequent revaluations of fixed assets are planned at five yearly intervals, although material changes to asset valuations will be adjusted in the interim period, should they occur.

In accordance with Financial Reporting Standard (FRS) 15, depreciation is provided on all operational buildings (but not land), as well as other assets.

**Depreciation Policy**

Buildings and leasehold land are depreciated over the shorter of 50 years or the anticipated remaining useful lives on a straight line basis.

Freehold land is not depreciated.

Non Operational Assets (including Investment Properties) are not depreciated.

**Filton Town Council**  
**Statement of Accounting Policies**  
**31 March 2020**

Vehicles, plant, equipment and furniture are depreciated over 5 years at 20% per annum straight line.

Infrastructure assets are depreciated over 5 to 10 years at 10% to 20% per annum straight line.

Community assets, other than land improvements, are not depreciated

Depreciation is accounted for as a Balance Sheet movement only, not through the Income and Expenditure Account.

**Grants or Contributions from Government or Related Bodies**

**Capital Grants**

Where a fixed asset has been acquired or improved with the financing either wholly or in part by a grant or contribution from government or a related body, e.g. Sports Council, the amount of the grant has been credited to Deferred Grants Account and carried forward. Grants so credited are released back to revenue over the life of the asset to match, and thereby offset wholly or in part, depreciation charged.

**Revenue Grants**

Revenue grants are credited to income when conditions attached thereto have been fulfilled and/or equivalent expenditure has been incurred. Grants received in respect of which the conditions have not been fulfilled, or expenditure incurred, are carried forward as deferred revenue grants.

**Stocks and Work in Progress**

Stocks held for resale, where significant (generally in excess of £1,000), are valued at the lower of cost or net realisable value. Consumable stocks have been treated as an expense when purchased because their value was not material.

**Debtors and Creditors**

The revenue accounts of the council are maintained on an accruals basis in accordance with the regulations. That is sums due to or from the council during the year are included whether or not the cash has actually been received or paid in the year. Exceptions to this are payment of regular quarterly and other accounts (e.g. telephones, electricity). This policy is applied consistently each year. Therefore, it will not have a material effect on the year's accounts or on the council's annual budget.

The council reviews the level of its commercial debtors on a regular basis and provisions are made, as required, where the likelihood of amounts proving ultimately collectable is in doubt.

**Value Added Tax**

Income and Expenditure excludes any amounts related to VAT, as all VAT suffered/collected is recoverable from or payable to HM Revenue and Customs. Any amounts not so recoverable are treated as a separate expense.

**External Loan Repayments**

The council accounts for loans on an accruals basis. Details of the council's external borrowings are shown at note 17.

**Leases**

**Filton Town Council**  
**Statement of Accounting Policies**  
**31 March 2020**

Rentals payable under operating leases are charged to revenue on an accruals basis. Details of the council's obligations under operating leases are shown at note 16.

**Reserves**

The council maintains certain reserves to meet general and specific future expenditure. The purpose of the council's reserves is explained in notes 19 to 20.

Certain reserves are maintained to manage the accounting processes for tangible fixed assets, available for sale investments and retirement benefits. They do not represent usable resources for the council:

Capital Financing Account – represent the council's investment of resources in such assets already made.

**Interest Income**

All interest receipts are credited initially to general funds.

**Cost of Support Services**

The costs of management and administration have been apportioned to services on an appropriate and consistent basis.

**Pensions**

The pension costs that are charged against precept in the council's accounts, in respect of its employees, are equal to the contributions paid to the funded pension scheme for those employees.

These contributions are determined by the fund's actuary on a triennial basis and are set to meet 100% of the liabilities of the pension fund, in accordance with relevant government regulations.

The next actuarial valuation is due at 31st March 2022 and any change in contribution rates as a result of that valuation will take effect from 1st April 2023.

The council also offers, to those employees not eligible for the Local Government Scheme, or who have opted out of that scheme, the opportunity to join a Workplace Pension Scheme operated on behalf of the council by {NA.ZD/21N.name}.

**Filton Town Council**

**Notes to the Accounts**

**31 March 2020**

**4 Related Party Transactions**

The council is required to disclose material transactions with related parties – bodies that have the potential to control or influence the council or to be controlled or influenced by the council. Disclosure of these transactions allows readers to assess the extent to which the council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's freedom to bargain with the council at arms length.

Related parties include:

**Central Government**

The council's operations are controlled by statutes passed by Central Government. All transactions with Central Government arise as a result of some of those statutes but do not, in the opinion of the council, require to be disclosed here.

**Principal Authorities**

The District Council collects this council's Precept and remits the same to the council under statutory provisions. The Precept is disclosed separately elsewhere in these accounts.

The County Council administers the Pension Fund of which certain of the council's staff are members. Details of amounts payable to the fund are disclosed at note 9.

Agency arrangements with other authorities (if any) are disclosed at note 5.

**Members of the council**

Members have direct control over the council's financial and operating policies. During the year no members have undertaken any declarable, material transactions with the council, nor the council with any member. Details of such transactions (if any) are recorded in the Register of Members' Interests, open to public inspection at the council's offices.

Members represent the council on various organisations. Appointments are reviewed annually, unless a specific termination date applies to the term of office. None of these appointments places a Member in a position to exert undue influence or control.

**Officers of the Council**

Other than their contracts of employment, no material transactions have been made during the year between the council and any officer.

**Other Organisations**

The council awards grants to support a number of voluntary or charitable bodies. It does not attempt to exert control or influence as a result of such grants.

**5 Agency Work**

During the year the Council undertook no agency work on behalf of other authorities.

During the year the Council commissioned no agency work to be performed by other authorities.

**6 Audit Fees**

The council is required to report and disclose the cost of services provided by its external auditors.

These may be summarised as follows:

	2020	2019
	£	£
Fees for statutory audit services	2,000	2,000
Total fees	<u>2,000</u>	<u>2,000</u>

**Filton Town Council**

**Notes to the Accounts**

**31 March 2020**

**7 Members' Allowances**

	2020 £	2019 £
Members of Council have been paid the following allowances for the year:		
Chairs Allowance	650	1,626
	<u>650</u>	<u>1,626</u>

The council has resolved that, other than the Chair, no members allowances will be paid.

**8 Employees**

The average weekly number of employees during the year was as follows:

	2020 Number	2019 Number
Full-time	12	14
Part-time	30	54
Temporary	40	-
	<u>82</u>	<u>68</u>

All staff are paid in accordance with nationally agreed pay scales.

**9 Pension Costs**

The council participates in the Avon Pension Fund. The Avon Pension Fund is a defined benefit scheme, but the council is unable to identify its share of the underlying assets and liabilities because all town and parish councils in the scheme pay a common contribution rate.

The cost to the council for the year ended 31 March 2020 was £74,294 (31 March 2019 - £77,709).

The most recent actuarial valuation was carried out as at 31st March 2019, and the council's contribution rate is confirmed as being 14.80% of employees' pensionable pay with effect from 1st April 2020 (year ended 31 March 2020 - 14.60%).

Financial Reporting Standard 17 (FRS17): "Retirement Benefits" sets out accounting requirements for pension costs. For schemes such as Avon Pension Fund, paragraph 9(b) of FRS17 requires the council to account for pension costs on the basis of contributions actually payable to the scheme during the year.

Although classified as capital expenditure, certain minor equipment purchases are not included in the above as they are not material in overall value.

**Fixed Asset Valuation**

The freehold and leasehold properties that comprise the council's properties have been valued as at 1st August 2004 by external independent valuers, Messrs the Valuation Office. Valuations have been made on the basis set out in the Statement of Accounting Policies, except that not all properties were inspected. This was neither practical nor considered by the valuer to be necessary for the purpose of valuation. Plant and machinery that form fixtures to the building are included in the valuation of the building.

**Assets held under Finance Agreements**

The council currently holds no such assets.
